*Is proud to present:*

**In Honor of The Charleston 9:  
A Study of Change Following Tragedy**

By: Dr. David Griffin

On June 18, 2007, nine firefighters perished in a warehouse fire in Charleston, SC. What was initially dispatched as a trash fire escalated into one of the most scrutinized events in national fire service history. David had the unfortunate experience of being the engineer on the first due engine that day. As he operated on the fireground, he witnessed things that he will never forget.
